(GAZUE

8.	O L to an				
	removed from irrigation.) SW1/4 Section 19, T.23N., R.56E., M.D.M. (160 acres), the northerly 13.3 acres of the NE1/4 NW1/4				
	Section 30, T.23N., R.56E., M.D.M. (removing a total of 173.3 acres).				
	See map on file under Permit 62947 to support the existing place of use.				
9.	Proposed use will be from January 1 to December 31 of each year. Month and Day of each year.				
10.	Existing use permitted from January 1 to December 31 of each year. Month and Day of each year.				
11.	Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.) Well, pump, motor, and pivot irrigation system.				
12.	Estimated cost of works In excess of \$50,000				
13.	Estimated time required to construct works Works constructed If well completed, describe well.				
14.	Estimated time required to complete the application of water to beneficial use 2 years				
15.	Provide a detailed description of the proposed project and its water usage (use attachments if necessary). The proposed use should be temporary in nature, or the requested change should be the result of an unforeseen occurrence: (Failure to provide a detailed description may cause a delay in processing.) Water is being moved from the non-supplemental portion of Permit 62947, which has a duty of 3.0 acre feet per acre. The pivot sprinkler will need approximately 4.0 acre feet per acre. This Temporary Application is being filed in conjunction with a Permanent Application to Change 62947 to correct the use of an unpermitted well on an area whose originally appurtenant permit was cancelled.
